LIMITED WARRANTY TERMS

During the first thirty (30) years after initial installation, your AT&S HDPE double wall tank is warranted against:

- Leaks due to defects in materials used in the tank
- Leaks due to faulty workmanship in the manufacture of the tank
- Leaks due to internal corrosion

If any one of the three (3) above events occur we will provide you with a replacement tank of similar size and configuration or, at our sole option, repair or refund to you an amount equal to the distributor's purchase price from us, or provide to you a credit equal to that amount to be applied toward the purchase of any new tank that we manufacture. To obtain a replacement tank, the dealer or qualified service technician must return the defective tank to an AT&S authorized distributor and exchange it for a replacement tank. All replacement tanks will be warranted for the remaining portion of the warranty period on the original tank.

If one of the three (3) events occur and we provide you with a replacement tank, we will also pay for labor, material, freight and/or handling charges associated with the replacement up to a limit of \$1,000.00. Any claim on this basis must be accompanied by supporting documents and be approved by AT&S.

This Limited Warranty applies to the original purchaser and subsequent transferees, but only while the tank remains at the site of the original installation and only if the tank is installed inside Canada.
